Weaving life with green fibers

COMPANY PROFILE - ECOSOI

Specializing in Pineapple Fiber
A Sustainable Future with
Pineapple Fiber

Pineapple Fiber/Yarn/Fabric -
Ecosoi

(+84) 768658941

<https://ecosoi.com/>

Mission

Ecosoi protects the environment by providing sustainable green material solutions made from agricultural by-products.

Vision

To become the leading global supplier of pineapple fiber, driving innovation and sustainability across industries.

CORE VALUE

Collaboration – Responsibility – Innovation

We value sustainable collaboration, always demonstrating responsibility towards our partners, community, and the environment. At the same time, we continuously innovate to deliver groundbreaking solutions in our products and services

2. WHY CHOOSE ECOSOI?

01

Pioneering & Trusted Manufacturer

Vietnam's first and most reputable pineapple fiber producer.

02

Diverse Product Range

We offer pineapple fiber, yarn, fabric, cottonized fiber, and technology consulting & transfer services.

03

Ethical Sourcing

Partnering with local farmers to create sustainable supply chains.

04

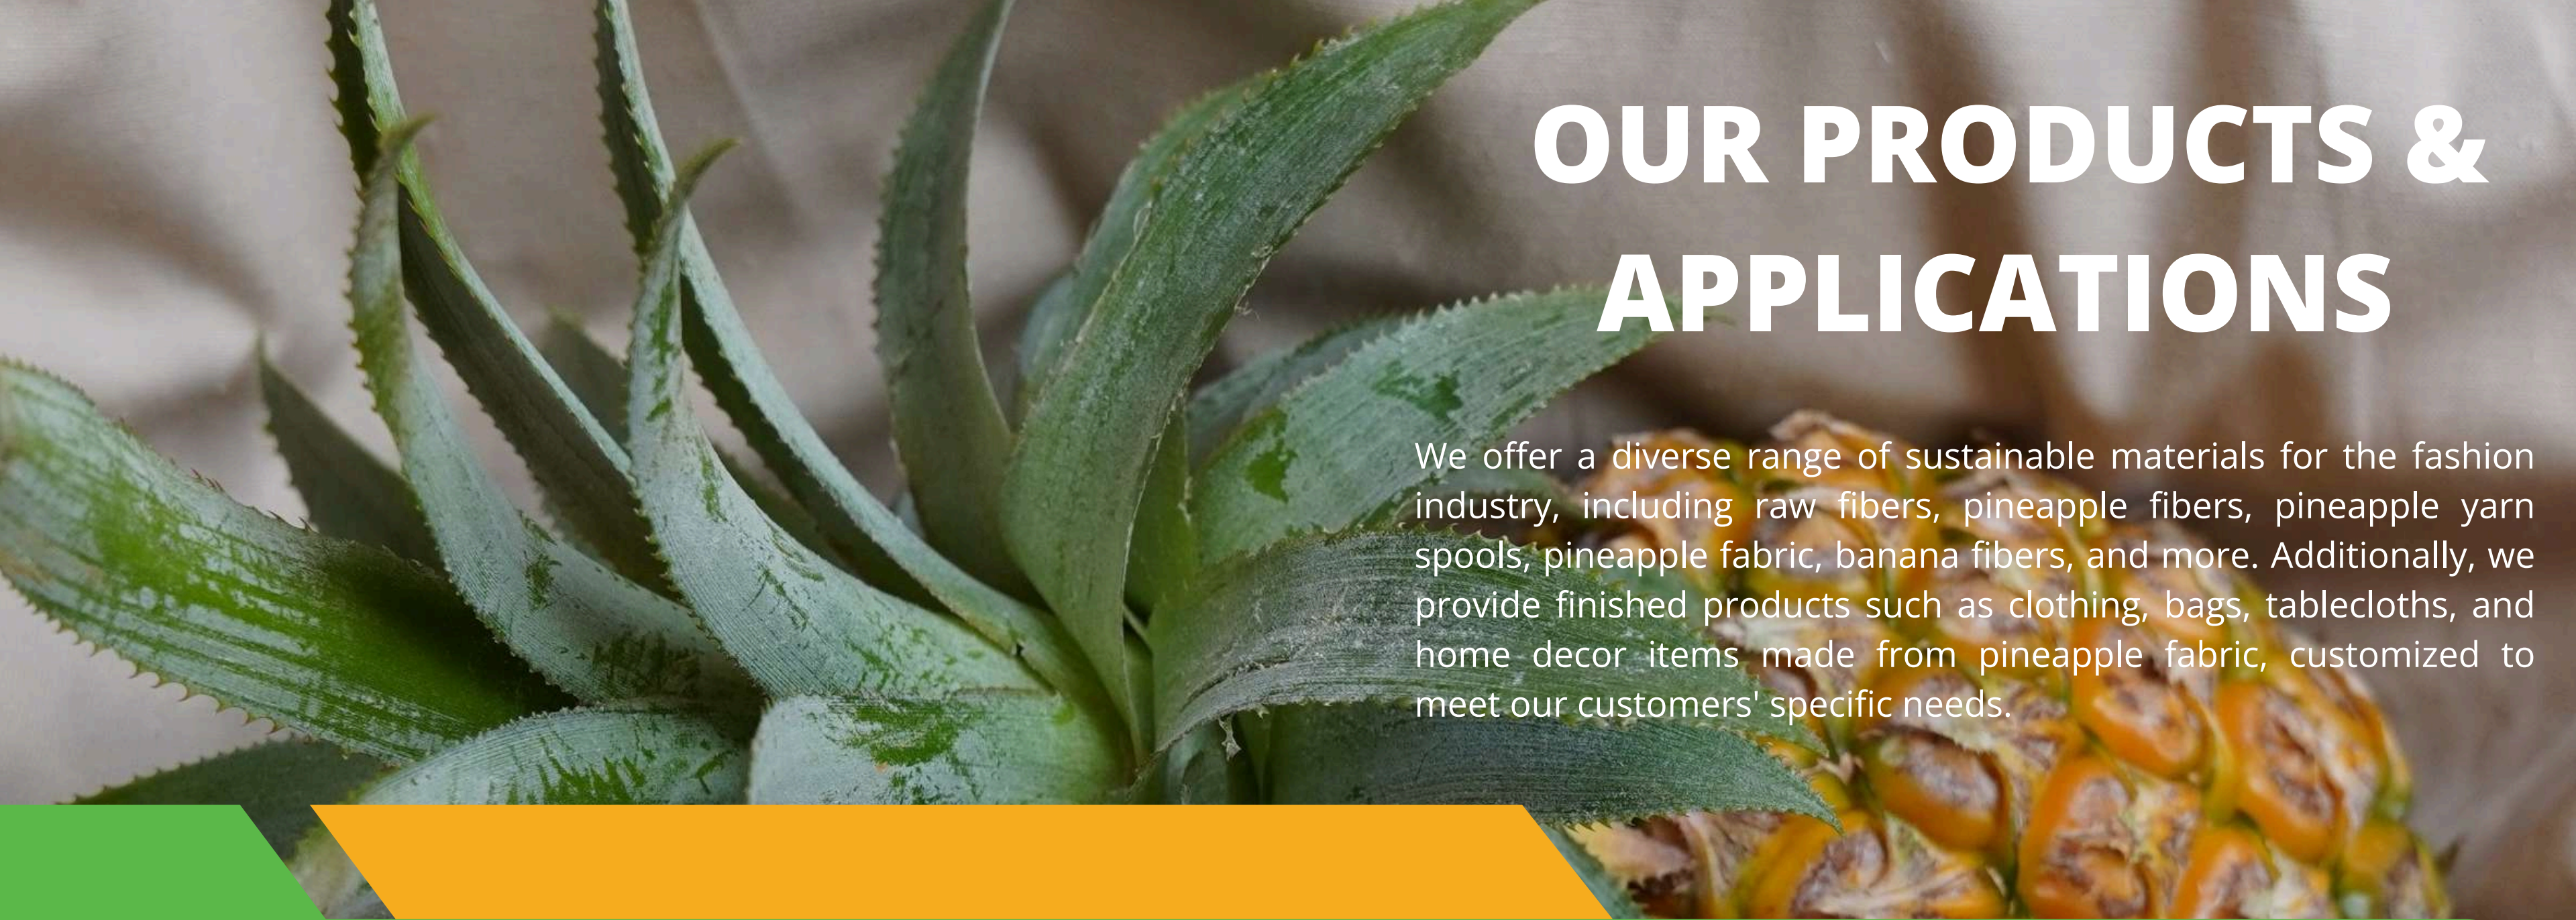

Largest Pineapple Fiber Supplier

Leading supplier in Vietnam and neighboring countries.

05

High-Quality & Eco-Friendly Materials

100% biodegradable and free from harmful chemicals.

OUR PRODUCTS & APPLICATIONS

We offer a diverse range of sustainable materials for the fashion industry, including raw fibers, pineapple fibers, pineapple yarn spools, pineapple fabric, banana fibers, and more. Additionally, we provide finished products such as clothing, bags, tablecloths, and home decor items made from pineapple fabric, customized to meet our customers' specific needs.

Pineapple Fiber

Pineapple fiber is a sustainable natural fiber extracted from pineapple leaves. Using advanced technology and modern machinery, we ensure high productivity and superior quality, offering an eco-friendly alternative for textiles and sustainable materials.

Pineapple Yarn

Blended with other natural fibers to create high-quality, eco-friendly yarns for sustainable textiles.

Pineapple Fabric

Versatile and innovative, our pineapple fiber fabrics come in various designs, including denim, knit, and woven fabrics, suitable for diverse applications.

Raw Pineapple Fiber

Degummed Fiber

Fiber Length: 60-100 cm

Color: Light greenish-white, ivory white, or pure white

Impurity Content: 5% - 25% (Depending on the type)

Non-Degummed Fiber

Fiber Length: 60-100 cm

Color: Light brown

Impurity Content: 20% - 30%

Pineapple Cottonized Fiber

Pineapple Cottonized Fiber is a refined pineapple fiber with a soft, cotton-like texture, optimized for spinning and non-woven applications. We customize the fiber size based on your specific requirements, ensuring suitability for various textile and industrial uses.

Pineapple Yarn

We blend pineapple fiber with various natural fibers to create diverse yarn options. Our range includes different yarn counts, suitable for both knitted and woven fabric applications.
