LINE

What you shape.

Silhouette.
Proportion. Structure.

How a product
holds its form.

If the line is not clear,
it is not approved.

BREATH

How it lives.

Airflow. Heat. Humidity.

How material and
construction work
with the body.

If it does not breathe,
it does not belong.

DESIGN

How it is resolved.

Pattern. Construction.
Durability. Repeatability.

From first sample to
consistent production.

If it cannot be repeated,
it cannot be produced.
